

# Infant Formula Security

Theft Deterrent System

[www.rtcprofitguard.com](http://www.rtcprofitguard.com)

## Loss Prevention Technology

The RTC **Infant Formula Security System** addresses the need to secure powdered formula in the 12.9 oz – 14.3 oz range, which are the sizes generally subsidized by the government under the WIC (Women, Infant, Children) program.

Offered in 2 sizes; 36" and 48" with an independent alarm system for shopping and restocking.

Two Hand Shopping

# Infant Formula Security

Theft Deterrent System

[www.rtcpprofitguard.com](http://www.rtcpprofitguard.com)

## Features

- 2 sizes:
  - 48" unit holds 72 total cans (9 across x 8 per lane).
  - 36" unit holds 48 total cans (6 across x 8 per lane).
- 17" depth and 13.5" height.
- All metal construction.
- Each facing has an independent alarm, which alerts store personnel when the facing door is pulled open.
- Each facing dispenses one can at a time.
- After a 3rd can is dispensed within eight seconds, the alarm changes to an aggressive tone to alert store personnel.
- 2 separate code-wheel combination locks for loading door and dispensing door so unit can be secured at stores' convenience.
- Optional: Metal wedge platform allows for two units to be vertically stacked.

## Benefits

- Reduces theft, an average of 42%.\*
- Improves product visibility.
- Reduces labor costs.
- Reduces restocking time.
- Easy installation.
- Unit anchors directly onto retailer shelf.
- Built-in graphic card holder for easy re-planogramming.
